

FOOD SAFETY POLICY Annex 1

The Food Safety Policy, defined by the Management of **Sucesores de Arturo Carbonell, S.L.**, for its activity of **production and commercialization of garlic paste**, sets as main objective the obligation of producing safe food that is in accordance with the legal and regulatory requirements, as well as with the requirements agreed with the clients about food safety, This Policy will always be adequate to our context and the function that our organization fulfils in the food chain.

Our food safety policy is focused on the following basic pillars:

1. To stablish internal and external communication channels that allow the information to flow in such a way that guarantees the safety food consumption.
2. To achieve the greatest levels of satisfaction of our clients as an essential way for the SGIA continuous improvement.
3. To produce high-quality and safe food, fulfilling all the legal application requirements and to assume our responsibility towards our clients.
4. To develop our activity with ethic and labor responsibility.

For that, we commit ourselves to:

- The implementation of a self-monitoring system of the production process that support the written compliance of the current regulations in hygiene-health matters based on the **HACCP** principles (Hazard Analysis and Critical Control Points).
- **Comply with the requirements** specified by our clients, and especially, with the **regulations and current law**.
- **Detect and correct our errors**, preventing them appearing, for obtaining an excellence level in our work and consequentially in the commercialized products.
- Inform about the problems we detect through the communication routs previously established, **suggesting and developing improvements**.
- Apply **evaluation mechanisms** that lead the successive amendments and innovations for the continuous improvement of our SGIA.
- Implement **technical and human resources** in order to improve the safety, technical and environmental conditions of our working places.
- Establish measurable **targets** that support the present Policy.
- **Develop a food safety culture**, extending this commitment to our suppliers and employees.
- **Communicate** the present Policy to every level of the organization and to the relevant stakeholders.
- Review this Politic for its **continuous adaptation** in a way in which is always updated and in accordance with our processes, the current legal requirements and the needs of our clients.

Molina de Segura, 9th of May 2022

Mr. Jesús Carbonell
Manager of SUCESORES DE ARTURO CARBONELL S.L.
